

NeuroMetrix To Start Shipping Quell™ Wearable Pain Relief Device In June

WALTHAM, Mass.--(BUSINESS WIRE)-- NeuroMetrix, Inc. (Nasdaq: NURO) reported that it anticipates commercial shipments of the Quell wearable pain relief device will begin in June 2015. The Company also announced that it has officially started accepting pre-orders for Quell directly on its website at www.quellrelief.com/getquell.

Quell is an over-the-counter wearable pain relief device that utilizes proprietary non-invasive neurostimulation technology to provide relief from chronic pain. The device is designed for people with conditions such as diabetic nerve pain, low back and leg pain, fibromyalgia and pain associated with osteoarthritis. The advanced wearable device is lightweight and can be worn during the day while active, and at night while sleeping. It has been cleared by the FDA for treatment of chronic pain without a prescription. Users of the device have the option of using their smartphone to automatically track and personalize their pain therapy.

About NeuroMetrix

NeuroMetrix is an innovative health-care company that develops wearable medical technology and point-of-care tests that help patients and physicians better manage chronic pain, nerve diseases, and sleep disorders. For more information, please visit <http://www.NeuroMetrix.com>.
