NeuroMetrix, Inc. Announces Date for 2012 Second Quarter Financial Results Conference Call

WALTHAM, Mass.--(BUSINESS WIRE)--Jul. 18, 2012-- NeuroMetrix, Inc. (Nasdaq: NURO) today said it plans to issue its 2012 second quarter financial results before the opening of the market on July 26, 2012. The Company will host a conference call at 8:00 a.m., Eastern Time on July 26, 2012 to discuss its second quarter financial results as well as business developments affecting the Company.

The conference call may be accessed in the United States by dialing 866-813-5647 and using the confirmation code 32913623. Internationally, the conference call may be accessed by dialing 847-619-6249 and using the same confirmation code. The earnings press release and accompanying condensed financial statements will be accessible from the Company's website at www.neurometrix.com under the "Investors" tab.

A replay of the conference call will be available starting two hours after the call by dialing 888-843-7419, domestically and 630-652-3042, internationally. The confirmation code to access the replay is 32913623. The replay will be available for three months after the conference call.

About NeuroMetrix

NeuroMetrix is an innovative medical device company that develops and markets home use and point-of-care devices, associated consumables, and support software for the treatment and management of diabetes and its complications. The company is focused on nerve related complications of diabetes, called diabetic neuropathies, which affect over 50% of people with diabetes. If left untreated, diabetic neuropathies trigger foot ulcers that may require amputation, cause disabling chronic pain, and increase the risk of falling in the elderly. The annual cost of diabetic neuropathies has been estimated at \$14 billion in the United States. The company's products are used by physicians and other clinicians, in retail health settings such as pharmacies, and by managed care organizations to optimize patient care and reduce healthcare costs. The company markets the NC-stat[®] DPNCheck[™] device, which is a rapid, accurate, and quantitative point-of-care test for diabetic neuropathy. This product is used to detect diabetic neuropathy at an early stage and to guide treatment. The company is in late stage development of SENSUS[™], a pain management device. The company has additional therapeutic products in its pipeline. For more information, please visit <http://www.neurometrix.com>.
